

TLC Diabetes

(Telephone-Linked Care)

TLC
Diabetes Project

Do you have Type 2 diabetes?

Do you want the chance to be among the first to try a new user-friendly technology?

You can take part in this world-leading research in new ways to support your daily diabetes management from the comfort of your home and at no cost.

The University-led study aims to support people with Type 2 diabetes to better manage their diabetes.

Research trial assessing an interactive telephone system to assist diabetes management

Participants will be allocated by chance to one of two groups:

Group 1 receives support for their daily diabetes management via this new telephone-based technology, in addition to their usual medical care.

Group 2 continues to receive their usual medical care.

If you...

- ✓ are aged between 18 and 70 years
- ✓ have Type 2 diabetes
- ✓ live in the greater Brisbane area
- ✓ and would like to find out more...
